

Dear Council President Lightner:

On behalf of the San Diego Coastal Chamber of Commerce, I offer our continued support the new One Paseo project as proposed by Kilroy Realty.

The Chamber is most concerned about meeting the growing demands of our community and surrounding areas related to housing, jobs and retail options. The proposed project will improve our area's ability to attract and retain businesses with its many amenities and options. For example, many of our existing corporations seek out places to entertain and entice potential talent and clients in the Del Mar Heights area. One Paseo will be a shining example of our community's character and value.

We are excited that the new One Paseo will not only bring residential, retail and business uses together, but it will have plenty of public spaces and civic areas for people to gather. Not only will the project benefit families and residents nearby, but it will serve as a destination place for business interaction.

Our Board of Directors is excited about this project's potential to strengthen our local economy. We urge the San Diego City Council to support this important project.

Sincerely,

Nancy Wasiko
President & CEO
